DETAILED ACTION

This action is in response to applicant's response filed on 1/7/05. Claims 1-32 are now pending in the application.

Claim Objections

1. Claim 26 is objected to because of the following informalities:

Claim 26 recites a formula for the phase correction factor that comprises several elements. An expression for these elements should be included in the claim (i.e, similar as done in claim 23).

In addition, for clarification purpose, it is suggested that the phrases "said function further comprising" be deleted from the claim.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites the limitation "said phase correction factor" in line 2 of the claim. There is insufficient antecedent basis for this limitation in the claim.

Suggestion, insert "a phase correction factor," preceding "said" in the claim.

Art Unit: 2685

Allowable Subject Matter

3. Claims 1-8, 10-25, 27-32 are allowed.
4. Claims 9, 26 would be allowable if rewritten to overcome the objection or rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter:

As to claims 1, 18, the cited prior art fails to disclose or make it obvious the claimed invention for the reason as stated in Applicant's response filed on 1/7/05, pages 10-12.
